*Herbert M. Bratter*, author of "A Survey of Silver" in this issue, says that "silver has a venerable history." The agitation of today has a far distant background. Mr. Bratter is a well-known financial expert and writer on problems of world finance, of Washington, D. C.

*N. E. Coad*, who prepared the current survey of New Zealand affairs, is a member of the Wellington group of the Institute of Pacific Relations. She has long been interested in educational problems and has been active on textbook boards, being herself the author of a *Geography of the Pacific* used in the Dominion schools.

*Kenneth Saunders*, writing of significant early contacts when a roaming West first met the haughty and imperious East, is an old contributor to *PACIFIC AFFAIRS*. He is just returning to the Pacific rim and his chair at the Pacific School of Religion in California from a year in Europe. His best-known books are, perhaps, "Epochs of Buddhist History" and "The Gospel for Asia." A new book, "Heritage of Asia," is forthcoming, of which an article by that title, appearing in this journal last October, is the introduction.

*Our Reviewers: E. S. C. Handy* (Colonial Policy, etc.) is ethnologist on the staff of the Bishop Museum of Polynesian History at Honolulu, and a frequent contributor to our pages. *L. A. *Dr. Yasaka Takaki*, author of "World Peace Machinery and the Asia Monroe Doctrine," is professor of Constitutional History and Diplomacy at the Imperial University of Tokyo, and has attended the past three conferences of the Institute of Pacific Relations in Honolulu, Kyoto and Shanghai. His article is the expression, he says, of his sense of the obligation of the Japanese liberal today to give to the world a clear picture of the actual psychological situation in Japan with relation to the Manchurian problem, together with his own interpretation and his own perhaps opposite view. Dr. Takaki is one of the foremost thinkers in the Japanese liberal group today.

*Tsutomu Obana*, who contributes the study of "The Changing Situation of Japanese in California," is a graduate of Waseda University, Tokyo, and several American universities. He has been engaged in public social and economic movements in Japan, and returned to America in 1926 for a special survey of the Industrial Activities of Pacific Coast Japanese. Later he was associated with Prof. E. G. Mears of Stanford University in the latter's survey of social and economic problems of Orientals on the Pacific slope (see Mears: "Resident Orientals on the American Pacific Coast"). Since then he has been research assistant to Prof. E. K. Strong of Stanford, studying the vocational problems of American-born Japanese in California.

*John Wesley Coulter*, who here describes Harbin, fascinating center of the kaleidoscopic racial life and change now shifting in and about it in Manchuria, has just returned from several months of observation spent in that disturbed area. He is professor of Economic Geography at the University of Hawaii and a frequent contributor to economic and geographic magazines.

*Our Reviewers: William H. George* (The Society of Nations) is professor of History and Political Science and Dean of the College of Arts and Sciences at the University of Hawaii. *Paul S. Bachman* (World Disarmament and the Outlawry of War) is assistant professor of Political Science at the University of Hawaii and regular contributor to the PACIFIC AFFAIRS bibliographical section. *Charles E. Martin* (Background of International Relations) is chairman of the Political Science Department at the University of Washington. *W. J. Hinton* (Economic Rivalry in China) is associated with the Bankers' Institute of London, and was formerly on the faculty of the University of Hongkong. *John Wesley Coulter* (Pioneer Settlement) is mentioned above.
